

Hi-Tech Homes from

Hi-Tech System's

HI-TECH SYSTEM ASSOCIATES, INC. is Tallahassee's premier source for all of your home technology needs. From pre-wiring a new structure to installing a security system in an existing structure, HI-TECH has all of the technological products that you are considering for your home.

HI-TECH begins working with you the day you or your builder make the informed decision to use one of our products or services in your new home. Our staff will work with you to customize your home to best suit all of your low-voltage needs. Then, as you are imagining all of the incredible advances in technology and how to incorporate them into your dream home, our staff can literally transform that vision into reality.

Our product line includes: structured wiring, security and monitoring, closed circuit video surveillance, central vacuum, custom designed

home theaters, flat-panel television installation, distributed audio, intercom, and home automation. For

Jason Wester, owner stands before alarm certifications in the Hi-TECH showroom

a detailed description of all of our products visit our web site : www.hi-techflorida.com or give us a call to schedule an appointment at our showroom.

Our staff is well versed on our many systems and the proper procedures for installing and maintaining those systems. HI-TECH SYSTEM ASSOCIATES is a Florida Licensed Alarm and Low Voltage Provider and is a member

This unique home features Hi-Tech's whole house audio, dedicated home theater, elaborate security system, home network and 5 flat panel TV installations throughout the home

(Above) The pool area features hidden rock speakers, (below) a 32" flat screen with in-ceiling stereo speakers.

Living room features 5.1 surround sound system 50" wall-mount tv with LCD touch-screen remote integrates all system components.

(Middle) 4th bedroom was converted to a dedicated home theater with a 92" screen and 7.1 surround sound, touch screen remote; (r) master suite 3.1 surround sound with 42" flat panel.

of the Alarm Association of Florida. All of our staff have undergone federal background checks and have completed state required certification courses. Our staff is constantly researching the technological market and always looking for new services to provide our clients. Our commitment to you is if you can conceive it, our staff can design and install it.

Not only do we understand our products and services, at HI-TECH we understand the construction industry. Our highest priority is meeting the needs and deadlines established by our builders and homeowners. HI-TECH has been trusted to provide services to over 20 builders in the Tallahassee market alone. In 2006, HI-TECH worked in over 250 houses. HI-TECH's products have been featured in over a dozen Parade of Homes houses. In fact, you've probably seen our work in many commercial establishments across Tallahassee and the Florida Panhandle.

Whether you are building a 1,200 square foot home or a 14,000 square foot estate, our professionals are prepared to assist you with any services or products you desire. For more information about how HI-TECH can change your home and enhance your life please contact us today!
