

The Meeks

BUILDING A FAMILY TRADITION

In April 1976, 31 years ago, Jimmy Meeks Sr. began Meeks Electric, Inc. after passing the Master Electrical Exam. The same month his first born, Jimmy Jr. arrived. Jimmy Sr. worked by himself for the first year. After establishing a clientele he began to hire other employees to assist in workload. In July 1979 his second son, Casey, arrived. By this time the Electrical Company had grown to three trucks and 6 employees.

As Jimmy Jr. and Casey grew so did the electrical company. They learned the art of hard work at an early age. As young boys they both worked in the company cleaning and stocking the warehouse and learning to read plans.

They grew up in the shadow of their father, in and around construction. By the time the boys started college at Tallahassee Community College the Electrical Company had grown to 10 trucks and 20+ employees working in the surrounding counties within a 100-mile radius of Tallahassee. Once the boys completed their AA degrees at TCC they both moved on to Florida State University where they majored in Business.

By this time the Electrical Company had grown to 17 trucks and up to 50 employees. While enrolled at FSU, Jimmy Jr. decided to pursue a Real Estate degree. He received his Real Estate license in 2002 and began Meeks Realty & Investments, Inc., in 2004. Jimmy Jr. has managed the electrical Company for the past five years as he builds up Meeks Realty's clientele. Meeks Realty focuses on selling new construction homes built by Meeks Construction & Development, purchases and sells Investment Property as well as home resells. Casey completed his Business degree at FSU and decided to pursue the building industry. He received his State Contractors license and started Meeks Construction & Development, Inc., in 2003.

Meeks Construction & Development Inc. specializes in new home construction on your lot or ours. We also do commercial construction and renovations. The first home built in the Killearn Lakes area was sold at completion. The first Parade of Homes entry was in 2004 and won the Gold Award in the \$489,000 - \$510,000 price range. Our 2006 Parade of Homes entry won the Gold Award in the \$998,000 - \$1.65 million price range. Meeks Construction & Development, Inc. has built homes ranging from \$150,000 to \$1.5 million.

Meeks Companies, which consist of Meeks & Sons Electric, Inc., Meeks Realty & Investments, Inc. and Meeks Construction & Development, Inc., can assist you in residential and/or commercial electrical work, buying and/or selling homes or investment property, subdivision development and buying and/or building a new home or office.

Meeks Companies also offers property in Wakulla, Gadsden County and Coastal Property in Franklin County. These properties consist of Gulf Front St. George Island Plantation, River Front, Lake Front and Lots in Gated Subdivisions. The following new subdivisions are under construction: Leon County – Sycamore Ridge and Mariana Oaks Phase I & II; Franklin County – Gated Communities: Lake McKissack Place, New River Run, Crooked River Plantation; Gadsden County - The Ridge at Little River.

2006 Parade of Homes Gold Award in the \$998,000 - \$1.65 million price range
